

Current Nevada Tobacco Law

- Nevada law does not allow any local government to adopt tobacco regulations which are stricter than state law.
- Allows smoking in any facility where a gaming license has been issued.
- The only places where smoking is totally banned by state law are licensed child care facilities with more than five children, elevators, video arcades and public buses.

Nevada Clean Indoor Air Act

(Question #5)

Bans smoking in:

- ✓ Schools and child care facilities
- ✓ Movie theaters
- ✓ Grocery & convenience stores
- ✓ Government buildings
- ✓ Shopping malls
- ✓ Retail establishments
- ✓ Indoor areas of restaurants
- ✓ Bars that serve food

Nevada Clean Indoor Air Act

(Question #5)

- Gives local authorities control to repair any potential loopholes in the law and pass additional measures to enforce local tobacco regulations.
- Will **not** ban smoking in:
 - ✓ stand alone bars that do not serve food
 - ✓ gaming areas of casinos
 - ✓ hotel/motel rooms

Responsibly Protect Nevadans from Secondhand Smoke (Question #4)

- *Allows* smoking in:
 - ✓ some schools & child care facilities
 - ✓ gaming areas of grocery and convenience stores
 - ✓ restaurants & bars
 - ✓ casinos and any indoor environment where even a single gaming device is present

Responsibly Protect Nevadans from Secondhand Smoke (Question #4)

- Repeals existing tobacco laws including the Clark County School District's ability to adopt more stringent tobacco regulations.
- Will *not* allow local governments to enact smoking regulations that are more stringent than state law.
