I. PURPOSE

To establish procedures for ensuring compliance with legislative mandates, including mandates in Department of Health and Human Services appropriations acts, and applicable Health Resources and Services Administration guidance.

II. SCOPE

This policy applies to all Southern Nevada Community Health Center herein referred to as Health Center operations.

III. POLICY

A. Procurement Standards for Federal Awards

1. 2 CFR Part 200; 45 CFR Part 75. Code of Federal Regulations (CFR) Title 2 Part 200 and Title 45 Part 75 contain the uniform administrative requirements, cost principles and audit requirements for federal awards. Any procurement awarded with federal (grant) funds will comply with 2 CFR 200 or 45 CFR 75 as applicable.
2. 2 CFR 200, Sections 317-326, Procurement Standards. Sections 200.317 through 200.326 contain the procurement standards. The following procurement standards apply to federally funded procurements.
 - a. 200.317, Procurements by states
 - b. 200.318, General procurement standards

- c. 200.319, Competition
 - d. 200.320, Methods of procurement to be followed
 - e. 200.321, Contracting with small and minority businesses, women's business enterprises and labor surplus area firms
 - f. 200.322, Procurement of recovered materials
 - g. 200.323, Contract cost and price
 - h. 200.324, Federal awarding agency or pass-through entity review
 - i. 200.325, Bonding requirements
 - j. 200.326, Contract provisions
3. 2 CFR 200 Section 330, Subrecipient and Contractor Determination. Every contract awarded will have a subrecipient determination on file. A purchase order will be awarded to a supplier, and not a subrecipient.
4. 2 CFR 200, Sections 420-475; 45 CFR 75, Sections 420-475, General Provisions for Selected Items of Cost. These sections provide principles to be applied in establishing the allowability of certain items involved in determining cost. These principles apply whether or not a particular item of cost is properly treated as direct cost or indirect (F&A) cost.
5. 2 CFR 200, Appendix II, Contract Provisions for Non-Federal Entity Contracts under Federal Awards. The following clauses covered under this section will be included with any procurement using federal funding, including purchase orders.
- a. Remedies. Contracts for more than the simplified acquisition threshold currently set at \$250,000, which is the inflation-adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.
 - b. Termination. All federally funded contracts \$10,000 or more must address termination for cause and for convenience by the non-federal entity including the manner by which it will be affected and the basis for settlement.
 - c. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally

assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

- d. Davis-Bacon Act. As amended (40 U.S.C. 3141-3148). When required by federal program legislation, all prime construction contracts equal to or in excess of \$2,000 awarded by non- federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- federal entity must report all suspected or reported violations to the federal awarding agency.
- e. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by a non-federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702

and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer based on a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

- f. If the Federal award meets the definition of “funding agreement” under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.
- g. Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).
- h. Energy Efficiency. Contractor will comply with mandatory standards and policies relating to energy efficiency, which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).
- i. Debarment and Suspension. (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed

on the governmentwide Excluded Parties List System in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235),

- j. Debarment and Suspension. The Excluded Parties List System in SAM contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Furthermore, each of contractor's vendors and sub-contractors will certify that to the best of its respective knowledge and belief, that it and its principals are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency.
 - k. Byrd anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award of \$100,000 or more must file the required certification. Each tier certifies to the tier above that it will not and has not used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award.
1. **PROCUREMENT OF RECOVERED MATERIALS.** A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
