

**REQUEST TO AMEND PETITION NO. 23-16**

The District’s goal is to seek out and retain a **Clinical Pharmacist** with certain skills. While inclined to offer a highly competitive salary, the impact of the District’s internal pay relationship must be considered also. In terms of education, experience, complexity of duties, working relationships, and accountability, the **Clinical Pharmacist** classification was ranked proportionately higher than the Medical Epidemiologist classification. The District originally petitioned approval to establish the new classification in Schedule 38 but respectfully asks consideration be given to the internal value of the position and approval of the **Clinical Pharmacist** in Schedule 36. See corresponding salaries below.

<b>Schedule 36</b>	<b>Beginning Salary Step 1</b>	<b>Ending Salary Step 14</b>
<b><i>Clinical Pharmacist</i></b> Director of Administration Medical Epidemiologist	\$116,459.20	\$162,489.60

<b>Schedule 38</b>	<b>Beginning Salary Step 1</b>	<b>Ending Salary Step 14</b>
Clinical Staff Physician	\$128,980.80	\$179,670.40
