No action may be taken upon a matter raised under this item of this Agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken pursuant to NRS 241.020. Comments will be limited to five (5) minutes per speaker. Please step up to the speaker's podium, clearly state your name and address, and spell your last name for the record. If any member of the Board wishes to extend the length of a presentation, this may be done by the Chairman or the Board by majority vote.

Avalyn Korringa, small business owner, stated she has participated in Farmer’s Markets without a permit for the distribution of smoothies. She noted the cost is prohibitive and NRS Chapter 439 limits
fee schedule to cover permitting and licensing for sole revenue. She also commented other vendors are not participating in Farmer’s Markets as they cannot afford the permitting fees.

Regena Ellis, SNHD/SEIU, addressed agenda item IX “Review/discuss rural health outreach” and Clark County extended services. She noted the Health District has a pediatric nurse practitioner who could function as a nurse practitioner. This is valuable and useful, yet the practitioner is working as an RN. As an entity, this is something that is positive and useful to the community and there is an interest for the community to receive these services. When talking about these kinds of things, it’s ultimately to protect the public. She wants to bring it to the Board so that there is positive resolution.

In addition, Ms. Ellis commented on the presentation from Emily Elzeftawy, Accreditation Coordinator. She noted Ms. Elzeftawy was hired as an Executive Analyst. She asked where that position is now if she’s doing accreditation; where is it funded and for how many years. She also inquired if both of the jobs are funded and how it affects the ending fund balance. There are multiple situations like that and that’s only one example. These things happen routinely. The ending fund balance is brought up as some prohibition for negotiating over wages so the correct information about the budget is needed. Last, Ms. Ellis commented about the HR Supervisor position and there was a person laid off in HR, and now this position was posted.

Seeing no one else, Chair Kirkpatrick closed this portion of the meeting.
