

MEMORANDUM

Date: June 17, 2025

To: Southern Nevada Community Health Center Governing Board

From: Randy Smith, Chief Executive Officer, FQHC *RS*

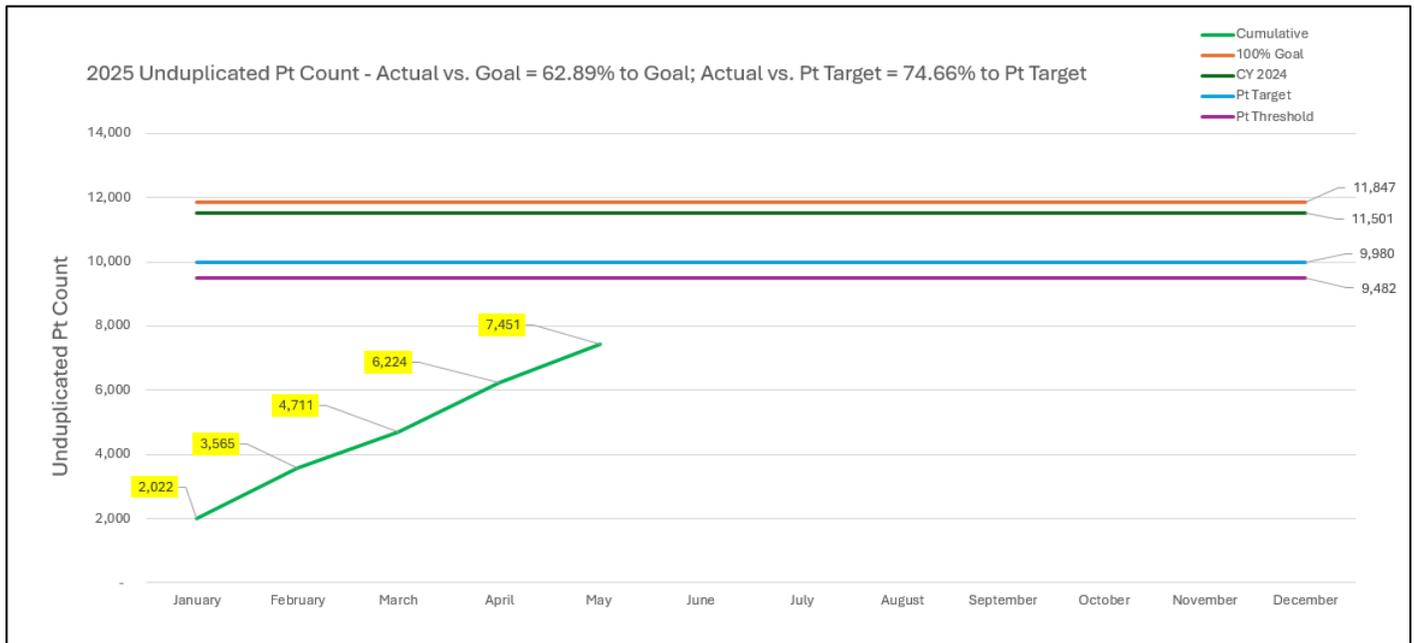

Cassius Lockett, PhD, District Health Officer *CL*

Subject: Community Health Center FQHC Chief Executive Officer Report – May 2025

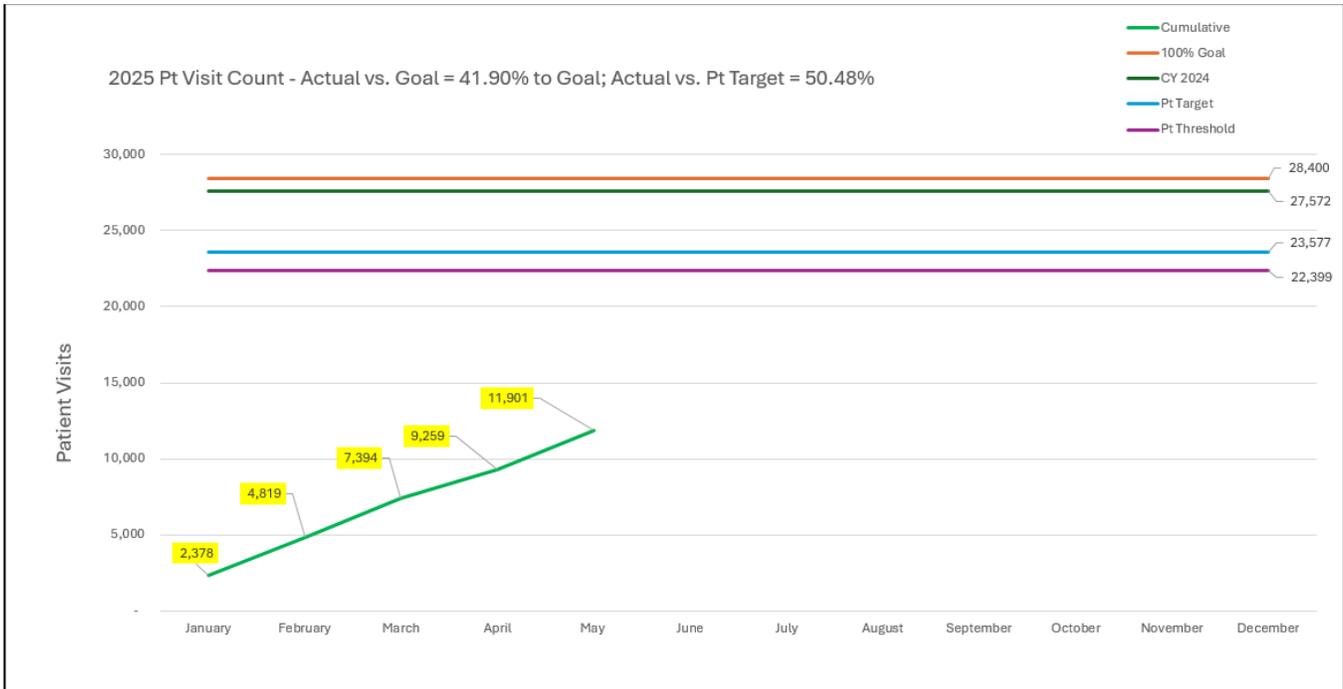

Division Information/Highlights: The Southern Nevada Community Health Center, a division of the Southern Nevada Health District, mission is to serve residents of Clark County from underserved communities with appropriate and comprehensive outpatient health and wellness services, emphasizing prevention and education in a culturally respectful environment regardless of the patient’s ability to pay.

Access

Unduplicated Patients – May 2025

Patient Visits Count – May 2025

Provider Visits by Program and Site – May 2025

Behavioral Health Services

- A. During the month of May, two doctoral students from UNLV's School of Public Health: Department of Social & Behavioral Health, began volunteering. They are creating a tool to measure the effectiveness of integrated care currently taking place in the clinic between medical and behavioral health.
- B. Planning is underway to provide a support group to newly diagnosed HIV patients in the Ryan White program. The group will meet bimonthly and will be held in English and Spanish. The group aims to provide education on various topics in addition to providing therapeutic support. The facilitating team has been surveying patients to assist with understanding what topics are most pertinent to them. The group officially launches on June 3, 2025.
- C. For Mental Health Awareness Month, the Behavioral Health Manager was asked to speak on a panel, Salon Talk, and bring awareness to the topic of perimenopause, menopause, heart health, and how it impacts one's health and mental health.

Family Planning Services

- A. Family Planning program access was up 18% in May and is up 22% year-over-year. Program team administrators and clinical staff are currently engaged in a quality improvement project to increase access to care with the aim of simplifying the scheduling process and reducing waste in the appointment schedules. New appointment templates have been implemented in response to this work. A new lunch break schedule was implemented to increase access to care during the middle of the day. New metrics are being tracked focused on the percentage of appointments scheduled per provider per day as well tracking the third next available appointment by new and established appointments. The data will be used to make additional fine tuning to the appointment schedules.
- B. The program is going through a rebranding process to increase access to care to those most in need and provide more comprehensive sexual health services. This rebranding includes redefining the program as a provider of sexual and reproductive health services. Health center providers are receiving Family Planning specific training to support this transition.
- C. The program is scheduled for a comprehensive Title X site visit in September 2025. Work to prepare for the audit is under way.

HIV / Ryan White Care Program Services

- A. The Ryan White program received 58 referrals between May 1 through May 31. There were four (4) pediatric clients referred to the Medical Case management in May and the program received one (1) referral for pregnant women living with HIV during this time.
- B. There were 740 service encounters provided by the Ryan White Linkage Coordinator, Eligibility Worker, Care Coordinators, Nurse Case Managers, Community Health Workers, and Health Educator. There were 357 unique clients served under these programs in May.
- C. The Ryan White ambulatory clinic provided a total of 480 visits in the month of May, including 26 initial provider visits, 219 established provider visits including 4 tele-visits (established clients). There were 32 nurse visits and 203 lab visits. There were 45 Ryan White services provided under Behavioral Health by the licensed mental health practitioners and the Psychiatric APRN during the month of May.
- D. The Ryan White clinic continues to provide the Rapid StART services, with a goal of rapid treatment initiation for newly diagnosed patients with HIV. The program continues to receive referrals and accommodate clients on a walk-in basis. There were 10 patients seen under the Rapid StART Program in May.

FQHC-Sexual Health Clinic (SHC)

- A. The FQHC Sexual Health Clinic (SHC) clinic provided 1,378 unique services to 822 unduplicated patients for the month of May. There are currently more than 100 patients receiving injectable treatment for HIV prevention (PrEP).
- B. The FQHC SHC continues to collaborate with UMC on referrals for evaluation and treatment of neurosyphilis. The SHC is collaborating with the PPC- Sexual Health and Outreach Prevention Programs (SHOPP) with the Gilead FOCUS grant to expand express testing services for asymptomatic patients and provide linkage to care for patients needing STI, Hepatitis C or HIV treatment services. The FQHC SHC refers pregnant patients with syphilis and patients needing complex STI evaluation and treatment to PPC SHOPP for nurse case management services. The FQHC SHC Community Health Nurse team began providing services following the “Nurse Visit for Follow up (HIV) PrEP Therapy” standard operating procedure.
- C. One FQHC SHC provider and the CHN supervisor attended the Pacific AIDS Education and Training Centers Spring 2025 STI update, “A Syndemic Approach to HIV Care and Prevention Symposium”. The CHN supervisor participated as a panelist in the HIV Preexposure Prophylaxis (PrEP) panel discussion. The panel discussed processes, obstacles, strategies for patient retention in care, and lessons learned in establishing successful HIV PrEP services.
- D. There is one CHN vacancy in FQHC SHC due to a resignation.

Refugee Health Program (RHP)

Services provided in the Refugee Health Program for the month of May 2025.

Client required medical follow- up for Communicable Diseases	
Refugee Health Screening for Ova and Parasites (positive tests)	2
Referrals for TB issues	3
Referrals for Chronic Hep B	2
Referrals for STD	0
Pediatric Refugee Exams	3
Clients encounter by program (adults)	23
Refugee Health Screening for April 2025	26
Total for FY24-25	630

Outreach/In Reach Activity

Number of events	3 - outreach 0 - in reach
Number of people linked to the clinic	8
Number of people reached	124
Number of hours dedicated to outreach	11

Eligibility and Insurance Enrollment Assistance

Patients in need of assistance continue to be identified and referred to community partners for help with determining eligibility for insurance and assistance with completing applications. Partner agencies are collocated at both health center sites to facilitate warm handoffs for patients in need of support.

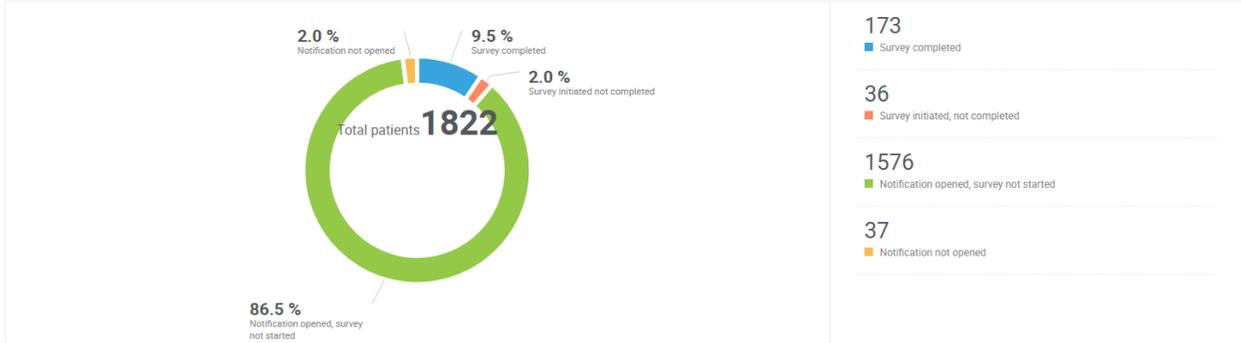

AT THE SOUTHERN NEVADA HEALTH DISTRICT

Patient Satisfaction: See attached survey results.

SNCHC continues to receive generally favorable responses from survey participants when asked about ease of scheduling an appointment, waiting time to see their provider, care received from providers and staff, understanding of health care instructions following their visit, hours of operation, and recommendation of the Health Center to friends and family.
