
CDC ENVIRONMENTAL HEALTH CAPACITY (EHC) GRANT: WELL WATER SAMPLING IN SOUTHERN NEVADA

2021-2025

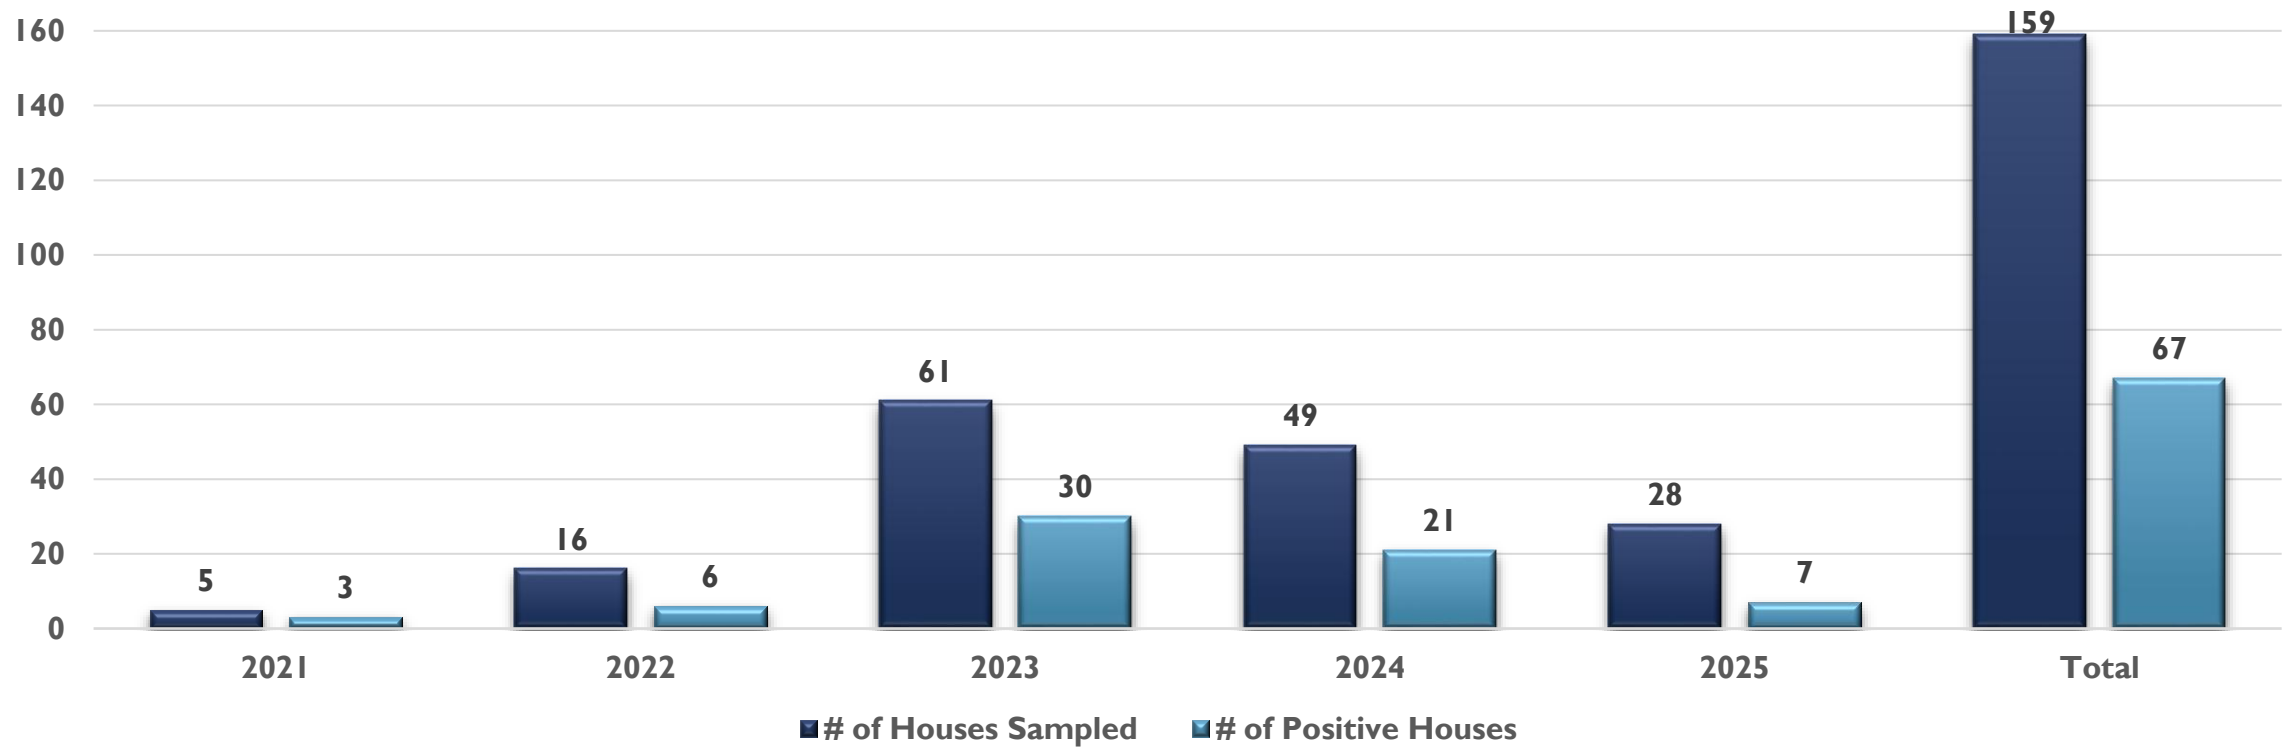

Legionella Testing

- Testing for *Legionella* and other bacterium/metals
- Water samples collected at
 - Well water spigot
 - Kitchen sink
 - Most used shower
 - Least used shower
- Sample results shared with residents
 - Education provided when results are positive for *Legionella*
 - Routine flushing of all fixtures

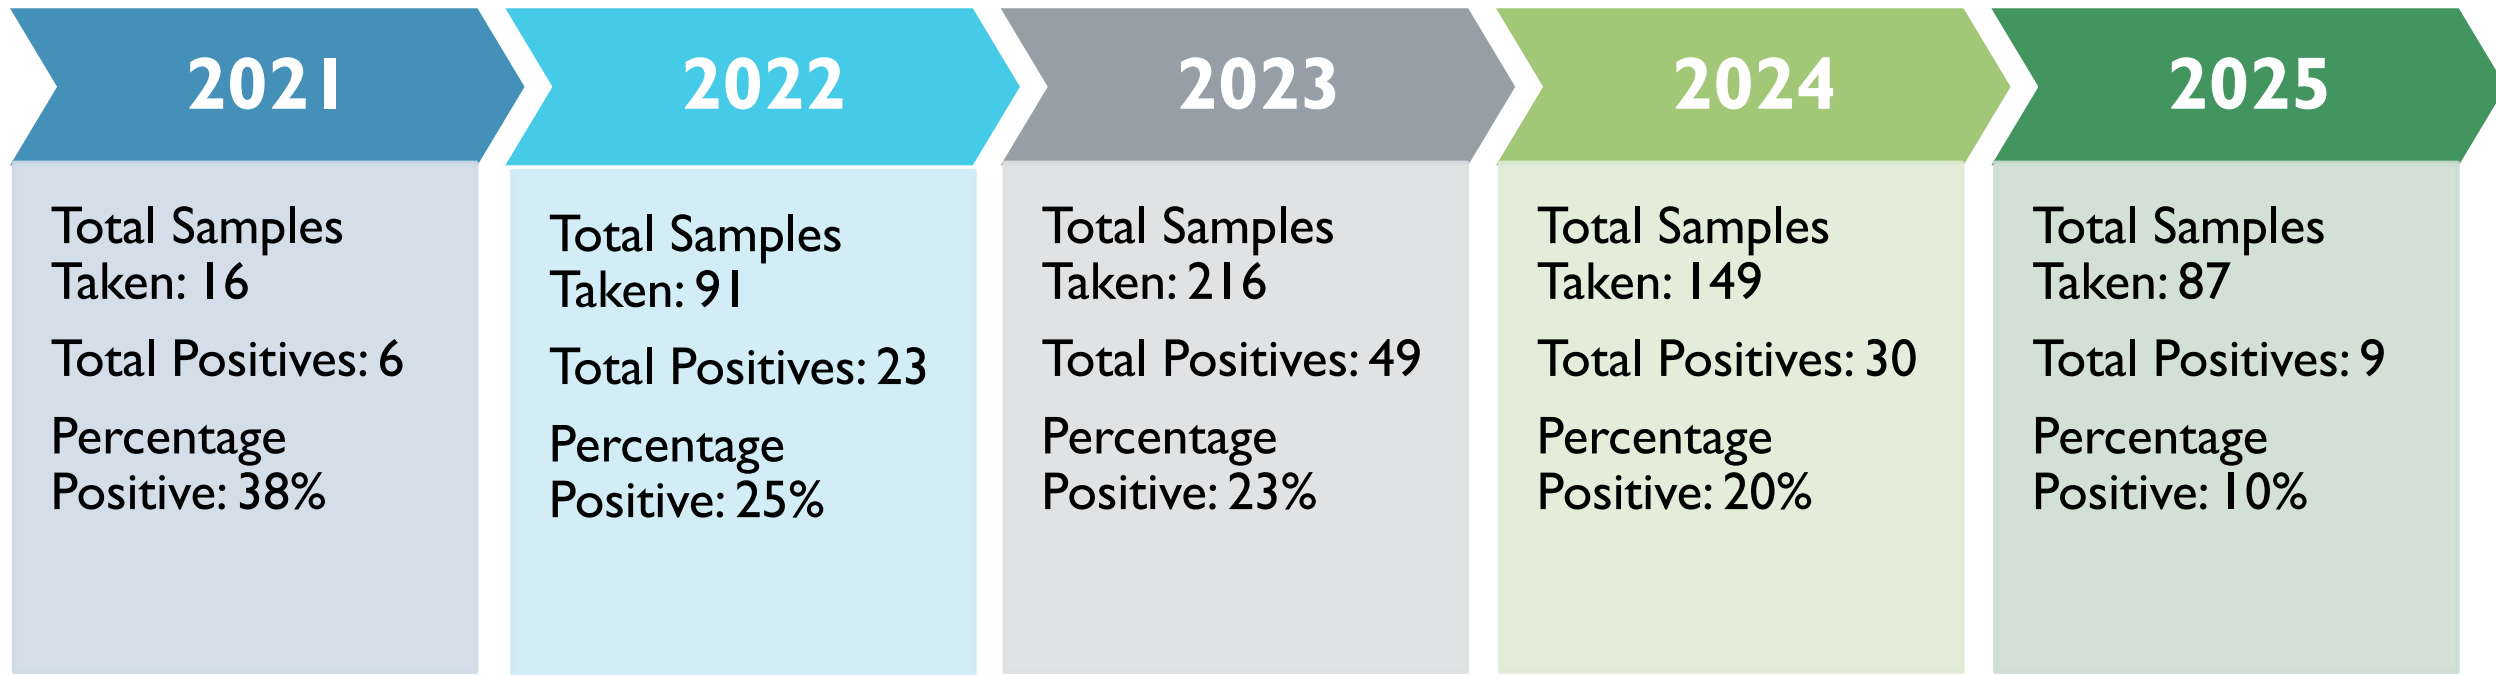

Role of the Southern Nevada Health District (SNHD)

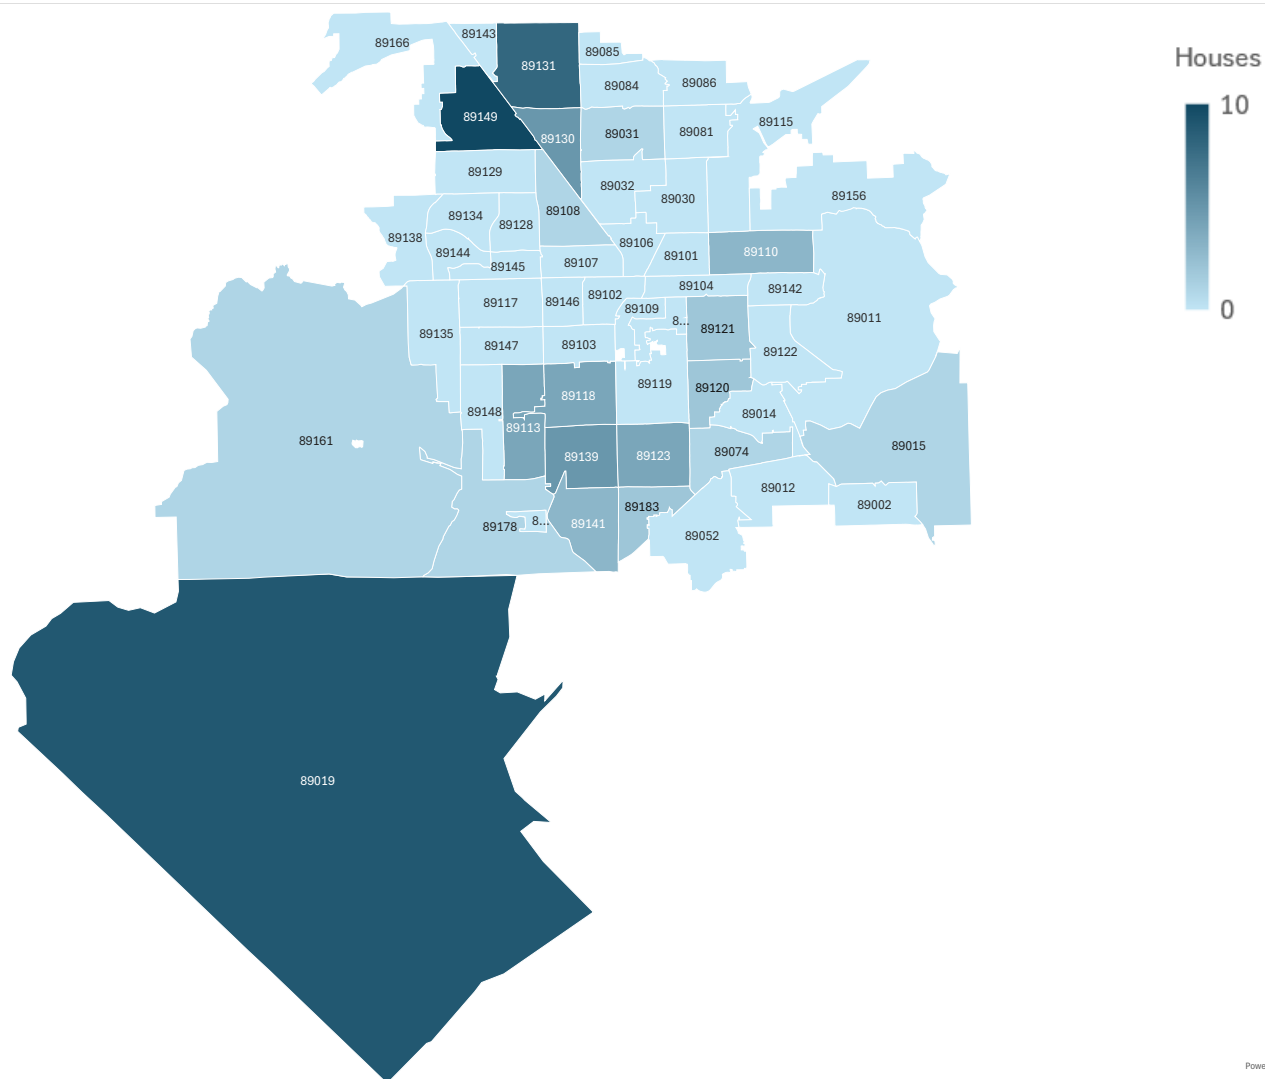

- Serves the geographical areas within Clark County, including the Las Vegas Metropolitan Area
- *Legionella* Program currently includes the Environmental Health Division (EH), Southern Nevada Public Health Laboratory (SNPHL), and Disease Surveillance and Control (DSC)
- Historically investigates travel-associated single cases due to the nature of the tourism-based economy of Las Vegas
- Conducts single case residential investigations since 2020 under an ELC grant project in conjunction with New York State Department of Health and New Jersey Department of Health
