- CHA Steering Committee Recruitment

CHIP Progress Updates

www.HealthySouthernNevada.org

The CHIP chronic disease subcommittee recognized smoking, and tobacco use in general, as an important determinant of multiple chronic diseases and identified **tobacco control efforts as a key mechanism for reducing the burden of chronic disease** in the Southern Nevada community.

☰ Goal 1: Decrease the prevalence of heart disease among those identified (Non-Hispanic Black/ African American, 65 and Older, by ZIP Codes)

- Objective 1.1: By December 2025, advocate for and attempt to secure increased funding for tobacco control to CDC recommended funding levels as well as other chronic disease programs.
- ✔ Action Step: Meet with Legislators to raise awareness and justify need for additional funding.
- Action Step: Promote existing tobacco programs and the connection to reduced chronic disease.
- Action Step: Identify funding priorities, best practices, and potential collaborations with local and statewide partners.

✔ Completed ➤ In progress ✖ Not started

☰ Goal 2: Decrease the prevalence of lower respiratory disease among those identified (Non-Hispanic Black/African American, 65 and Older, by ZIP Codes)

- Objective 2.1: By December 2025, implement CDC or national model policy and law for secondhand smoke protection.

Promoting health equity through access and utilization of care is important as everyone has the right to be healthy. Health should not depend on the ZIP code, economic status, or an individual's heritage, religion, and/or sexual orientation. **Having access to care helps address disparities and it is the first step in creating a more equitable health system** that improve the physical, social, and mental health for everyone in the community

Goal 1: Increase access to care in identified target populations by Access to Care Subcommittee (i.e., LGBTQ+, and uninsured and undocumented populations)

Objective 1.1: By December 2025, increase primary care centers providing mental health services in "medical deserts" for uninsured populations including undocumented and LGBTQ+ persons.

Action Step: Work with institutions of higher education to identify ZIP codes and data for underserved populations.

Action Step: Identify and document medical deserts in Southern Nevada

Action Step: Identify local, regional, and state level funding opportunities to support construction of new primary care facilities.

Action Step: Increase the total number of mental health professionals in the State by supporting individuals seeking licensure through free supervision.

Completed

In progress

Not started

Goal 2: Increase patient confidence in choosing primary care physicians with assistance of care coordinators

Objective 2.1: By December 2023, increase the number of healthcare providers documenting sexual orientation and gender identity on intake forms.

Action Step: With assistance of community partners, create a list of guidelines and revise intake forms.

Reliable access to transportation can help increase employment rates, access to healthy foods, access to health care providers and facilities, and access to parks and recreation for a healthy lifestyle. The CHA identified the high cost of transportation, lack of access to transportation, and insufficient transportation funding as key areas to address.

Priority Area 3: Transportation

Goal 1: Increase awareness of transportation options that facilitate access to basic needs and services

Objective 1.1: By December 2024, explore the expansion of Three Square's Golden Groceries program to include low-income populations of all ages.

Action Step: Confirm interest with service providers

Action Step: Identify new resources for expansion

Action Step: Pilot test service

Objective 1.2: By December 2024, promote awareness of existing programs such as Silver STAR and Silver Rider to eligible riders, and promote the expansion of on-demand transportation services for low-income communities lacking access to essential services.

Action Step: Confirm interest with service provider

Action Step: Identify new resources for expansion

Action step: Develop potential service routes

Action Step: Co-develop transportation service pilot

Increasing public health funding is a necessary first step to improving key determinants of health such as reducing high unemployment rates, addressing high health care and transportation costs, increasing limited public resources, and improve opportunities to pursue educational goals. **Accessible and transparent public health funding will facilitate the adoption and timely implementation of community health programs and services.**

 Goal 1: Increase the Nevada public health system's readiness and ability to respond to the health needs of the community

-  Objective 1.1: By December 2024, increase the community's understanding and awareness about the importance of public health funding.
-  Action Step: Conduct surveys and town hall meetings to understand community knowledge, beliefs, and perceptions about public health funding.
-  Action Step: Present results and action plan to community organizations
-  Action Step: Identify top priorities for public health spending within and across communities.
-  Action Step: Partner with state senators/assembly-people that want to increase the per capita funding and support via legislation.
-  Action Step: Provide support and partner with the Governor's Office/Nevada Public Health Association (NPHA)/National Association of Counties (NACO)/community partners hat advocate for funding.
-  Objective 1.2: By December 2025, Advocate for the government (federal, state, local) to increase the total amount of per capita funding dedicated to the public health system.
-  Action Step: Identify potential community partners
-  Action Step: Identify potential bill sponsors
-  Action Step: Identify Federal Legislator to partner with for funding.
-  Action Step: Draft bill language
-  Action Step: Develop and implement advocacy plan and Track Bill

Healthy Connect Newsletter

VOLUME 1, ISSUE 1 | JULY 2023

PRESENTED BY

What Is Healthy Connect?

Welcome to the first edition of the Healthy Connect newsletter!

The primary purpose of this newsletter is to inform the community about developments related to the **Community Health Improvement Plan (CHIP)** and keep partners up to date about exciting community partner news and events.

The four priority areas of the CHIP are: 1) **Chronic Disease** 2) **Access to Care** 3) **Transportation** and 4) **Public Health Funding**.

The Healthy Connect newsletter will provide quarterly updates on the progression of the CHIP action plan in the community as well as connect community members. Please utilize this platform to feature your important work in the community and connect with others to emphasize that we are "Healthy People in a Healthy Southern Nevada."

Get to know CHIP

The 2022-2025 Southern Nevada Community Health Improvement Plan was published in January 2023.

Click below to download a copy of the CHIP and read about our priorities for a healthy Southern Nevada.

VOLUME 1, ISSUE 1 | JULY 2023

CHIP Progress and Updates

Priority Area 1: Chronic Disease

Current Status: Raising awareness for additional public health funding and promotion of existing tobacco programs and its connection to reduce chronic diseases.

Upcoming: Many proposed action steps within the Chronic Disease Subcommittee are tied with the last legislative session. More updates to come in our next newsletter.

Priority Area 2: Access to Care

Current Status: Identifying community partners to inform cultural responsiveness training material.

Upcoming: Collaborating with institutions of higher education to identify ZIP codes for underserved populations (LGBTQ+, uninsured, and undocumented) and medical deserts.

Priority Area 3: Transportation

Current Status: Confirming partner interest and identifying organizations that provide basic needs resources in the community.

Upcoming: Exploring funding opportunities to consider new transit fare policies.

Priority Area 4: Public Health Funding

Current Status: Connected with Governor's Office and aligned community health efforts with statewide priorities.

Upcoming: Continuously monitor any new legislative bills for increased public health funding and grant/funding opportunities in Southern Nevada.

2025 Community Health Assessment

2025 Community Health Assessment

What is it?

An assessment that identifies key health needs and issues through systematic, comprehensive data collection and analysis.

Why is it important?

Provides organizations comprehensive information about the community's current health status, needs, and issues. Helps develop community health improvement plan by justifying how and where resources should be allocated to best meet community needs.

Why you should be involved

- **Tell the Community Story**

Continuously improve the community by addressing the social determinants of health and health equity through transformational strategies.

- **Develop and Continue Strategic Partnerships**

Identify opportunities for joint efforts to improve the health and well-being of Clark County.

2025 CHA ROADMAP

1 NOVEMBER 2023

Official CHA Cycle Begins

- Establish Steering Committee
- Gain Leadership Support

3 MAY – JULY 2024

Community Status Assessment (CSA)

5 NOVEMBER - JANUARY 2025

Data Analysis and Edits

2 FEBRUARY – APRIL 2024

Community Partner Assessment (CPA)

4 AUGUST – OCTOBER 2024

Community Context Assessment (CCA)

6 MARCH 2025

Publish CHA data reports, profiles, and update data dashboards

Assessments

Community Partner Assessment (CPA)

- Replaced LPHSA
- Helps community partners review their
 - (1) individual systems, processes, and capacities
 - (2) collective capacity as a network of community partners to address health inequities.

Community Context Assessment (CCA)

- Combined FOCA & CTSA
- Qualitative tool to assess and collect data through three domains
 - community strengths & assets
 - built environment
 - forces of change
- Focuses on people and communities with lived experiences and lived expertise.
- Emphasizes views, insights, values, cultures, and priorities of those experiencing inequities firsthand.

Community Status Assessment (CSA)

- Formerly CHSA
- Collects quantitative data on the status of community
 - Demographics, health status, health inequities
- Helps community move “upstream” and identify inequities beyond health behaviors and outcomes.
- Reveals data gaps and issues

Next Steps

2023 - 2025

Continue Implementation of Action Plan into Community

2023-2025

Progress Updates & Tracking to HSN Website

Nov '23 - Jan '24

Recruit CHA Steering Committee Members and Gain Leadership Support

February 2024

Begin CHA Cycle Process - Community Partner Assessment
