Sewer Connection:  Municipal Septic System Other Water Supply: Municipal Well Other							
Do any existing health permits require deletion? $\Box$ Yes $\Box$ No If <b>yes</b> , you must submit a Notice of Business Closure form.							
PLAN REVIEW							
Plans will not be reviewed until Health District staff verify that the application packet is complete and all required documents, as specified in the <i>Minimum Requirements for Plan Submission</i> are submitted. Permit applications must be submitted at least 30 calendar days before the projected opening date to avoid the assessment of late fees as provided in the EH Fee Schedule. Application fees are due upon receipt of the invoice, and projects are subject to cancelation due to non-payment. Plan review fees are non-refundable.							
Permit applications expire 180 calendar days after submission unless an extension is granted by the Health Authority. For this reason, it is important that the owner or owner representative provides frequent project status updates to the Health District.							
Health District approval is independent of all other approvals required by other regulatory entities. The applicant must separately obtain approvals and permits from other agencies and programs as required. The establishment is not permitted to operate until the required construction inspections, including the final permitting inspection, have been conducted and approved.							
ATTESTATION							
By signing below, I hereby certify that I am the owner of the business or that I have been approved by the owner to act as their Authorized Representative for matters related to the preparation, submission, and revision of plans and applications to the Southern Nevada Health District.							
I attest that the information provided to the Southern Nevada Health District in the permit application packet is true and accurate. I have read, understand, and agree to be held to the conditions and responsibilities as provided in the <i>Instructions for Submission of Plans for Review</i> document. I agree to comply with applicable regulations and will allow the Health Authority reasonable access to the establishment and to any records needed to verify compliance with the regulations.

# Electronic Application Submission (PREFERRED)

Applications may be submitted electronically to <u>foodrev@snhd.org</u>. If the file is large, please email <u>foodrev@snhd.org</u> to request an upload link.

Once Health District staff have verified that the application packet is complete (see *Minimum Requirements for Plan Submission*), an email confirmation will be sent. Plans are reviewed within two weeks of the email confirmation. An inspector will contact the Permit Holder or Authorized Representative via phone or email when they begin reviewing the plans. The plan status, required corrections, and an invoice will be provided to you via email after the review is complete.

# **In-Person Submissions**

If the application packet cannot be submitted electronically, it can be delivered to 2830 E. Fremont St, Las Vegas, NV 89104. Drop-off hours are Tuesday-Friday, 8:00am-4:00pm.

# Payment of Fees

Plan Review and Annual Health Permit fees must be paid upon receipt of the invoice. All fees must be paid prior to scheduling any field appointments.

Plan Review Fees are not refundable.

The Fee Schedule may be found on our website: www.snhd.info/permits-regulations

Fees may be paid online via credit card or e-check if the bank allows e-checks: **www.snhd.info/eh/payment** Checks may be mailed to the PO Box address listed on the invoice.

# **Inspections for Construction Projects**

A pre-permitting walkthrough may be required by your plan reviewer or may be requested by the applicant prior to the final permitting inspection. The final permitting inspection can be requested *after* approvals are received by the building department, fire prevention, and sewer departments if applicable. Proof of approval may be provided in the form of a Certificate of Occupancy or other documentation from the applicable jurisdiction. Failure to provide proof of approval from other agencies may delay the health permit approval and the business license activation.

### Inspections for Establishments undergoing Change of Permit Holder

A Change of Permit Holder (CPH) inspection will be scheduled after the health permit and plan review fees are paid. Failure to pay outstanding balances within 5 business days for an open and operating facility will result in a closure until such time that a permit is obtained.

# **Other Information**

- ⇒ Inspection cancellations must be made *before* the inspector is on route to the facility to avoid a missed appointment fee.
- ⇒ Establishments must be fully functional with power, gas, hot water, and the equipment operational during the final permitting inspection. The expectation is that all construction is complete, and the facility is ready for customers once the health permit is approved.
- ⇒ When the permit holder changes, the establishment cannot open for business or stock food until after the health permit is approved UNLESS, it has continuously operated throughout the CPH process.
- ⇒ A re-inspection or failed final permitting fee for each permit will be assessed if the establishment is not ready for the scheduled inspection.
- ⇒ Undisclosed or unclear design characteristics do not constitute approval of such mistakes or omissions. It is the responsibility of the permit holder, or prospective permit holder, to comply with all laws and regulations.
- ⇒ The number and type of permits will be determined by the plan reviewer based on information provided by the applicant. For this reason, it is important to provide as much information about the business plan as possible and be available to answer questions when plans are being reviewed.
- ⇒ It is the responsibility of the permit holder to properly develop the project and contact the applicable agencies and SNHD programs for approvals such as Aquatic Health, Public Accommodations, Individual Sewage Disposal System, Public Water Systems, Underground Storage Tanks, HACCP/ Labeling, etc.

www.snhd.info | foodrev@snhd.org | 702-759-1258

All businesses are required to have a City or County business license *and* a business license with the Nevada Secretary of State prior to operating. The ownership information on the health permit must match the ownership on the business license.

#### FOOD / DRINK

- ☑ A completed application packet
- $\blacksquare$  A contact person who can answer questions about the facility operation and plans.
  - Proof of Ownership in the form of a Lease, Deed, or other legal document granting permission for the permit applicant to operate at the specified physical location.
- Plans Required for New and Remodel Permits only: Submit plans in electronic format (PDF). Plans must include: Equipment layout and specifications; plumbing supply lines, waste lines, and fixtures; finishes of floors, walls, and ceilings; and lighting. You may also include photos as needed.
- $\square$  Menu Required for establishments with open-food handling.
- ☑ Food Questionnaire Required for establishments that cook, cool, or reheat food. Commissary Agreement – Required for establishments that are non-permanent or portable.

#### CHILDCARE, SCHOOLS, AND INSTITUTIONS

- A completed application packet
- $\blacksquare$  A contact person who can answer questions about the facility operation and plans.
- Proof of Ownership in the form of a Lease, Deed, or other legal document granting permission for the permit applicant to operate at the specified physical location.
- Plans Required for New and Remodel Permits only: Submit plans in electronic format (PDF). Plans must include: Equipment layout and specifications; plumbing supply lines, waste lines, and fixtures; finishes of floors, walls, and ceilings; and lighting. You may also include photos as needed.
  - Layout of the outdoor play area, including climbable equipment, protective surfacing, and shade structure(s) if applicable. Menu – Required for establishments with open-food handling.
- Ø Room dimensions and occupancy information must be provided.
- ☑ If there are classrooms for children under 5 years old, toilet heights (floor to rim) and hand sink heights must be provided on the plans.

#### BODY ART

- A completed application packet
- A contact person who can answer questions about the facility operation and plans.
- Proof of Ownership in the form of a Lease, Deed, or other legal document granting permission for the permit applicant to operate at the specified physical location.
- Plans Required for New and Remodel Permits only: Submit plans in electronic format (PDF). Plans must include: Equipment layout and specifications; plumbing supply lines, waste lines, and fixtures; finishes of floors, walls, and ceilings; and lighting. You may also include photos as needed.
