

April 7, 2020

To whom it may concern:

The Southern Nevada Health District Office of Emergency Medical Services & Trauma System will no longer be printing licenses for pick up at the office for the duration of the state of emergency. This change applies to renewals and replacements only and is intended to reduce person to person contact. We will still be open for testing and fingerprinting for as long as practical.

EMS Providers may print a copy of their own license from their Imagetrend portal. Directions are located on the EMS webpage near the bottom.

Sincerely,

A handwritten signature in black ink that reads 'John Hammond'.

John Hammond
Manager
Southern Nevada Health District
Office of Emergency Medical Services & Trauma System
