

Laboratory Corporation of America  
3930 E. Watkins Suite 300  
Phoenix, AZ 85034  
888-522-2677

March 4, 2008

Dear Valued Client:

Pursuant to the Technical Bulletin issued by the Southern Nevada Health District we are hoping the information provided below will assist you in ordering laboratory testing on your patients.

We would like to remind our physicians to use the following test code in regards to the Southern Nevada Health District notification. If you place orders in an electronic LabCorp system, this code is available in the test directory. If using a manual requisition, please write this test code on the requisition, as it will not be pre-printed on the requisition.

LabCorp Test	Description
344053	Hepatitis C Antibody Hepatitis B Core Antibody, Total HIV

Reflex testing for positives will automatically occur. **For your convenience, LabCorp created the above panel. If desired, these tests may still be ordered separately.**

Please note the above test code and your account number can be used at any Patient Service Center in the United States. LabCorp has standardized its computer system across the country so the same test code can be ordered anywhere and the report will be delivered to your office by the method you have chosen. A Physician Request/Order is required for testing.

To assist you and your patients we have extended the operational hours for our Patient Service Center at West Charleston. The address and hours are listed below.
