# COMMUNITY HEALTH ASSESSMENT

## WHAT IS IT?

A systematic process involving the community to identify and analyze community health needs.

## WHY IS IT IMPORTANT?

CHAs will allow hospitals to support patient health and the social determinants of health.

## HOW IS IT USED?

By local hospitals as a process for determining the needs, or "gaps," between a current and desired outcome.

NEVADA**

# WHY WE NEED YOU

## **PURPOSE**

Conjoin community efforts and increase collaboration in projects, programs, and activities occurring in Southern Nevada.

## **MISSION**

Impact real-time, critical health issues where we live, work, learn, and seek care in Southern Nevada. Empowering communities working together to reach optimal health and quality of life for all.

## **VISION**

Participate in a collaborative approach that identifies community needs, assets, resources, and strategies towards assuring better health and health equity for all Southern Nevada residents.

# HOSPITAL ENGAGEMENT

Help health care systems, public health, and community partners focus available resources to **address the communities' most critical health needs**

**Create** an effective and sustainable CHA process

**Build stronger relationships** between health care systems and public health

**Identify opportunities** for joint efforts to improve the health and well-being of Clark County

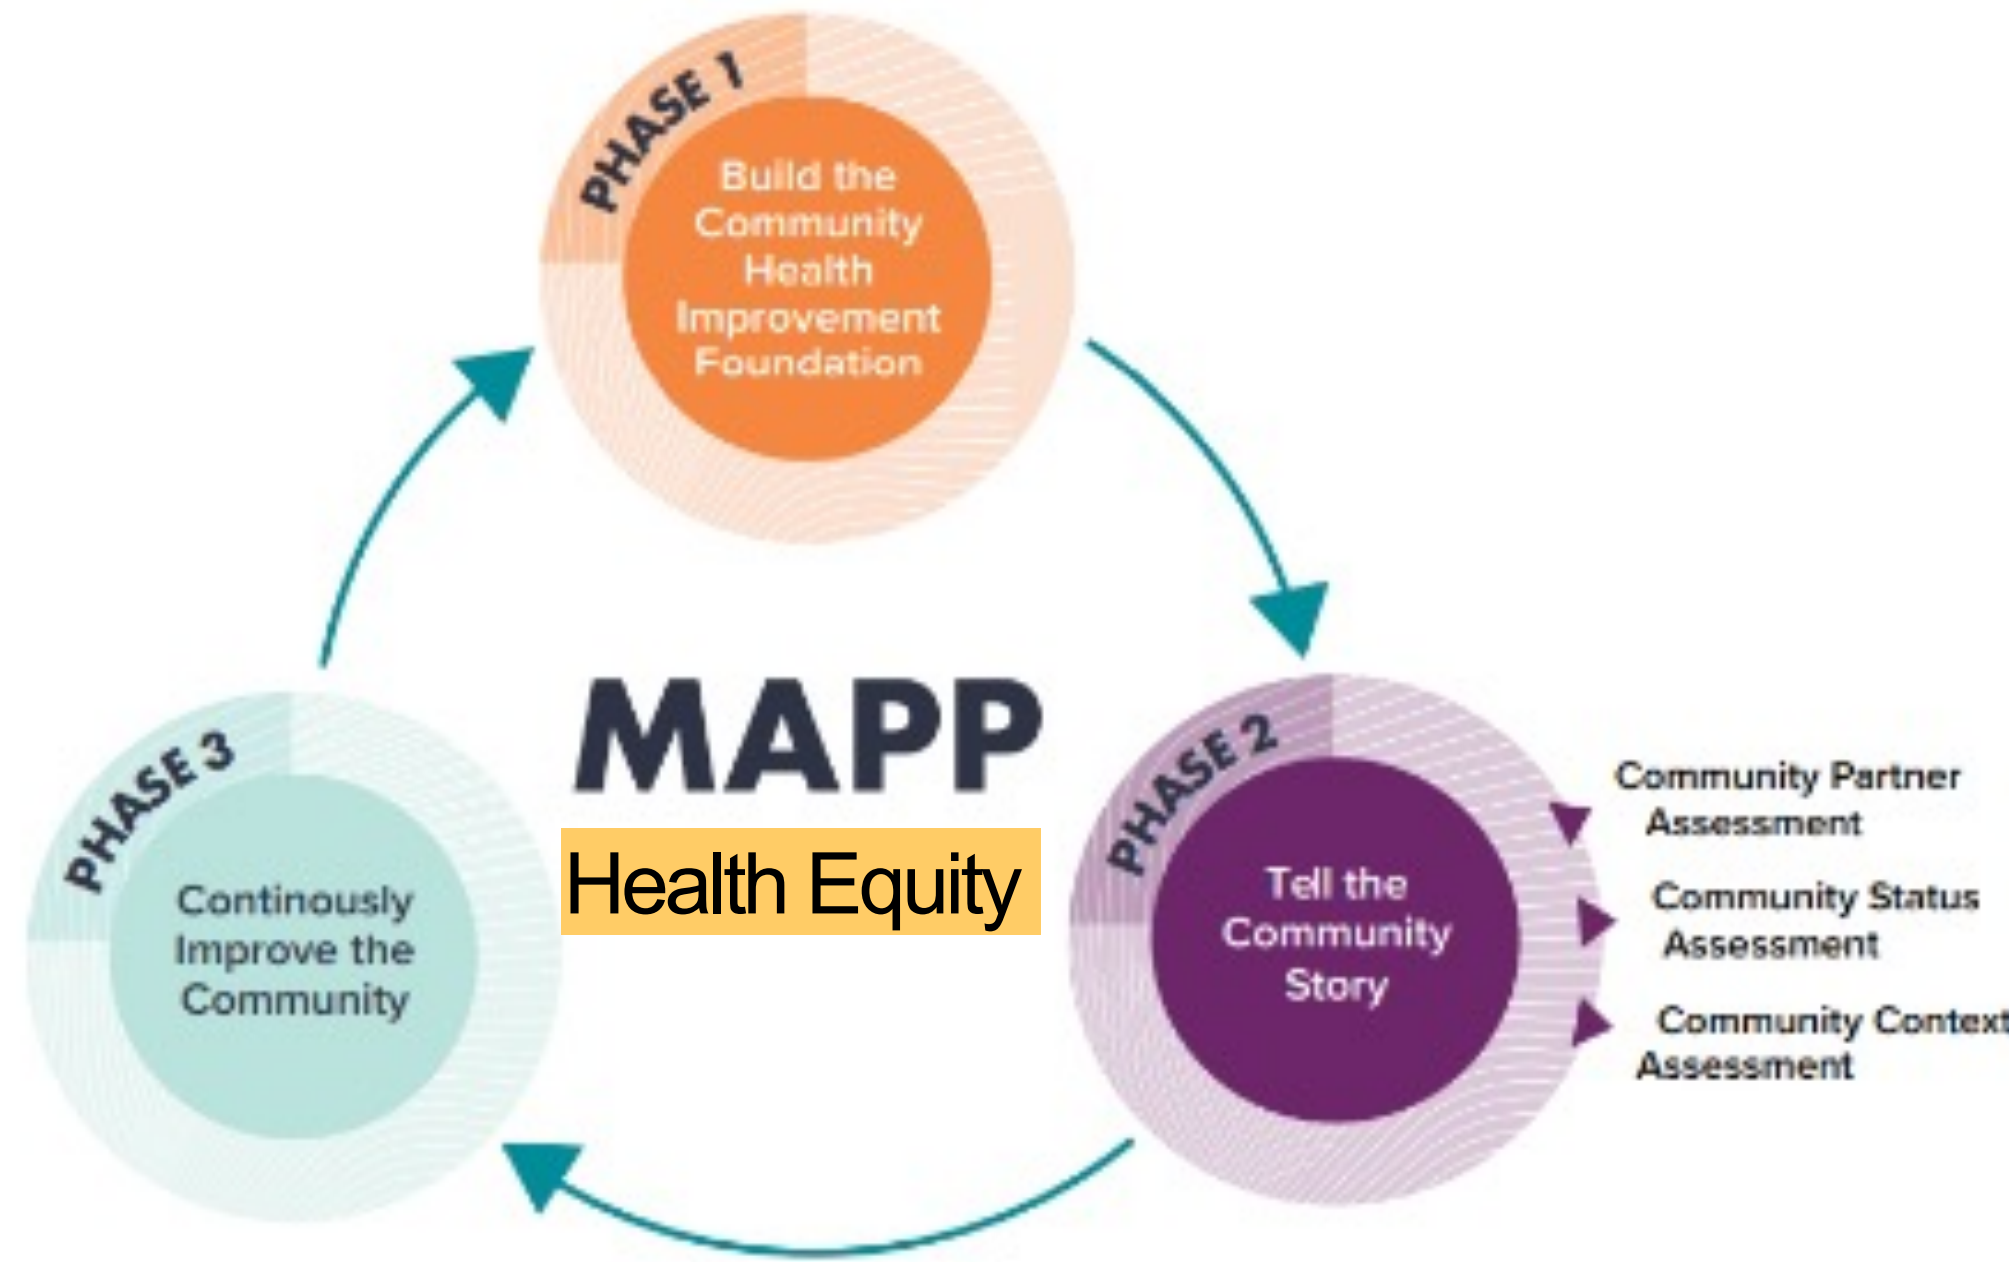

**Eliminate** duplicative efforts

# MAPP 2.0 Framework

# COMMUNITY PARTNER ASSESSMENT (CPA)

## Replaced Local Public Health Systems Assessment (LPHSA)

- Helps community partners review their:
  - (1) individual systems, processes, and capacities
  - (2) collective capacity as a network of community partners to address health inequities.
- Identifies current and future actions to address health inequity at individual, systemic, and structural levels
