

23RFP008 COVID Disparities Partners Project

Addendum #1 Questions and Answers

Issued: 06/01/2023

1 of 1

Question Number	Date Received	Question	Answer
Q1-1	5/30/2023 1:03:00 PM	Does SNHD have any position requirements for who can deliver the required partner tasks (RN, LPN, Social Worker, etc)?	<i>The position that may deliver a required partner task will depend on the task. For example, if the selected partner will provide direct healthcare services, such as testing and vaccination or substance abuse services, then the partner position (staff) that provides the service must at least possess the appropriate certification required by the State of Nevada to be able to provide the service(s) - to accomplish the task(s).</i>
Q1-2	5/30/2023 1:03:00 PM	Will SNHD accept internal references from SNHD?	<i>Provide a minimum of three (3) references, other than the Health District, of similar projects performed in the past five (5) years that demonstrate the Proposer's ability to meet the RFP requirements. Include dates of contracts and points of contact (name, address, telephone number and e-mail).</i>
Q1-3	5/30/2023 1:03:00 PM	How often will the required partner tasks need to be conducted?	<i>The frequency of required partner tasks will depend on the partner's proposal. For example, if the selected partner plans to attend health fairs and community events to share CDC- and Health District-approved covid-19 vaccination and treatment education and messaging, the selected partner will only be able to attend as many health fairs/community events as are available. Whereas, if the selected partner is a rural healthcare provider, then the Health District will expect them to provide the CDC recommendations for rural health activities for each client/patient.</i>
