STATE OF THE HEALTH DISTRICT

CHRISTOPHER SAXTON, MPH-EH, REHS

JULY 18, 2019

Environmental Health Expo

- The Environmental Health Expo is coming up on August 9.
- This event is open to the public and highlights the services and safeguards that SNHD brings to our community.
- Each Environmental Health program is represented and the Expo hosted over 400 attendees last year.

NOT TO BE REMOVED BY OTHER THAN HEALTH AUTHORITY

FOOD OPERATIONS

Mobile Food Vendor Stickers

Starting in July 2019, Environmental Health will be issuing readily-recognizable stickers for mobile vendors. This enables the community to recognize and patronize legitimate vendors.

Electric Daisy Carnival

- ▶ Food Operations provided inspection services and food safety coverage for this event.
- ▶ The event has over 100,000 individual attendees and has food, swimming, and camping outlets throughout the event.

NASCAR @ Las Vegas Motor Speedway

- ▶ The Las Vegas Motor Speedway hosts two premier NASCAR events: the Kobalt 400 and the South Point 400.
- ▶ The Kobalt 400 is the largest sporting event in the USA west of the Mississippi River – even bigger than the Rose Bowl!
- ▶ Food Operations ensures that more than 200 food outlets serve food and beverages safely to sports patrons.

Life Is Beautiful Concert Event

- ▶ The Life is Beautiful concert event brings in over 70,000 individual attendees and hosts over 35 musical artists.
- ▶ Staff ensures that over 120 food outlets operate safely.
- ▶ This event occurs in Downtown Las Vegas, occupying this area for over five days. This presents many challenges for food service, waste disposal, and water supply.

Foodborne Illness Outbreak Prevention and Response Conference

- ▶ Two day conference for continuing education credits.
- ▶ Topics include: case studies, legal considerations, and recent outbreak trends.

CONSUMER HEALTH PROGRAMS

Facilities Design Assessment and Permitting

- ▶ Released over 3,000 permits in FY19
- ▶ The Las Vegas Ball Park has 45 food establishment permits and 1 pool permit.
- ▶ Raiders Stadium will have over 120 permits once completed.

Aquatic Health

- ▶ New Aquatic Health Regulations went into effect on July 1, 2019.
- ▶ The Electric Daisy Carnival has four 90,000 gallon temporary pools in the campground. Event coordinators worked with SNHD for months leading up to the event to ensure safety and sanitation.

Special Programs

- ▶ Includes inspections of schools, child care, and body art facilities
- ▶ Clark County allows temporary events where people can get tattoos or permanent makeup. Staff inspected one event last year with over 150 artists.

Before and After

1,489 solid waste cases in the last year

The See Dumping? Say Something! Campaign started with a poster design. Staff attended multiple events and spoke to the public about illegal dumping, its ramifications, and SNHD's solid waste case process.

SEE DUMPING? SAY SOMETHING!

Illegal dumping is a significant problem in our community.
As the Solid Waste Management Authority for all jurisdictions in Clark County, the Southern Nevada Health District is responsible for investigating all complaints of the improper or unauthorized disposal of solid waste. This includes household garbage, construction debris, furniture, yard waste, concrete, used motor oil, tires, dirt, and rocks. *We need your help to solve this problem.*

Record the type of solid waste that was improperly discarded.

Record the date, time, and place of the alleged dumping activity.

Record the license plate number and description of the suspect's vehicle.

Record the physical description of the suspect(s).

If possible, take a photo or video of the alleged illegal dumping activity.

Never confront the suspect(s) or put yourself in harm's way.

Report this information to our Solid Waste and Compliance Program at **702-759-0600** or **www.SNHD.info/complaint**

DON'T TRASH RECYCLING

The Don't Trash Recycling poster was created after the success of the See Dumping? Say Something! campaign. This endeavor was aimed at cleaning up recycling commodities to increase overall recycling and decrease recyclables going into the landfill.

DON'T TRASH RECYCLING

Recycling contamination and improper recycling techniques are a significant cause of why curbside recyclables are landfilled. Follow these simple steps to keep your recyclables from going to the landfill.

Always keep your recyclables empty and clean.

Cardboard and paper that is wet or contaminated with food or grease should be thrown in the trash. Make sure your containers are empty or rinsed out before placing them in the recycling bin.

Bags don't belong.

Keep bags out of your recycling bin and never bag your recyclables.

Check your label.

Look at the label on your recycling bin. Locally we can recycle cardboard, paper, metal cans, glass bottles, plastic bottles, and jugs.

Don't throw trash in your Recycle Bin.

Never put landscape debris, food waste, diapers, clothing, batteries, or bags in your recycle bin. Throw them in your trash can.

Do you have an item that you don't know how to throw out?
Or you don't know where to take it? Visit us online for more information!
